Musk does not recommend space travel to a first time entrepreneur. It is better to start with something that requires low capital.

#### Transcript

No. That's a good question. No, I would not. I think SpaceX, this is advanced entrepreneuring. I can't tell you how many people have said that the fastest way to make a small fortune in the aerospace industry is to start with a large one so hopefully that doesn't work out. I think space is a tough one for first-time entrepreneurs. You're better off starting with something that requires low capital and space is a high-capital effort. Sorry. Last question?
